

FTTH DROP CABLE PROTECTIVE CASSETTE

PROFILE VIEW

DESCRIPTION

This Fiber Drop Splice Closure is used in FTTH connection, we use this Fiber Drop Repair Splice Closure to make heat Shrinkable Splice with 2pcs Drop Cable (Or Drop Cable SC Connector Terminated one side). It's designed for either Flat Drop Cable or Round Drop Cable.

FEATURES

- Small size and good appearance
- Smooth body and convenient installation
- Mainly used as the protection between cables or pigtails
- The reliable protection for splicing point avoids any breaking caused by external forces
- Material: ABS Flame Retardant Material
- Size: 470*950*10mm

OPERATION ENVIRONMENT

- Temperature: -25°C~+65°C
- Atmospheric Pressure: 70Kpa~106Kpa

VIBRATION

- 10Hz, sinusoidal vibration;
- Amplitude: 3 mm (6 mm, peak to trough);
- Clamp Distance: 10 times diameter (minimum 250 mm); time: 2 hours
- The residual fiber attenuation at 1550nm should be less than 0.03dB;
