

Cable Slitter KMS-K

DESCRIPTION

The KMS-K longitudinal fiber sheath slitter is an ideal tool for the construction and maintenance of fiber optic projects. It is applicable either at the beginning or in the middle of the cable. The cutter is composed of handle, serrated gripper, double blade and eccentric unit (four adjustable positions for the cable with different thickness). Additional attachable pieces available for standard optical fiber cable and cables with small diameter.

SPECIFICATIONS

- Resistant plastic material
- Safe and easy to operate
- Double blades made from hardened special steel
- Sharp and durable
- Adjustable slitting depth
