

Carbide Fiber Optic Scribe

DESCRIPTION

Economical pen-type ruby/carbide fiber optic scribe
Provides for a wider cutting surface- 6mm
Safety caps to protect blades when not in use

SPECIFICATIONS

- Economical pen-type ruby/carbide fiber optic scribe
- Provides for a wider cutting surface- 6mm
- Safety caps to protect blades when not in use

Note: Fiber scribe is not used for fiber splicing, just for some simple temporary tests or in some urgent cases, for instance, bare fiber adapter connection test etc. For high precision splicing or high quality fiber connections, it is suggested to use fiber cleaver.
