

Horizontal Closure GPJ-A

DESCRIPTION

Up-down bisection GPJ-A is an arc, horizontal type. Innovative insert plates and fixing bolts are used to fix and seal FOSC, and its installation is quite simple. The FOSC is suitable for protecting fiber cable splices in straight-through and branching applications. It can be placed in aerial, underground, wall-mounting and wall-mounting in handhole and duct applications. Based on an advanced formula, the plastic parts are made of injection-molded, high-strength engineering plastic PC by numerical control equipment, therefore effectively prevent products from aging caused by coldness, heat, oxygen and ultraviolet radiation. The strong housing and main components provide fire resistant, waterproof, and quakeproof while protecting splices during pulling, torsioning and impacting. It ensures long-term reliability and usage under ambient temperature.

FEATURES

Model No.	GPJ-A
Fiber Optic Splice Tray (FOST)	1-4pcs of FOST 16 or 24 with 12 or 24 fibers per tray
Total Capacity (fibers)	48 or 96
Dimension mm	400x200x120
Cable Entry and Size	6 ports with max. dia. 16mm
IP	65
